Rapid Rescore: The Mid Escrow Score Fix

Update your score in days, not months.

WHAT IT IS

When you pay down a card or fix an error mid escrow, the bureaus normally take a month or more to reflect it. Rapid rescore pushes the update through in about 3 to 5 business days.

WHEN IT SAVES MONEY

You are a few points from the next pricing band and a targeted card paydown gets you there. The improved score can lower your rate before you lock or close.

HOW IT WORKS

Only your lender can order it, using proof like a statement showing the new balance. It fixes real changes and errors; it does not erase legitimate history.

QUICK FACTS

- **3 to 5 business days, ordered by the lender**
- **Perfect for pricing band jumps**
- **Needs documentation of the change**
- **Not a credit repair magic trick**
- **Ask before you lock, not after closing**
